

To Our Faithful Supporters and Prayer Partners,

In Zachariah chapter four, God gave Zerubbabel a vision of a golden lampstand, to encourage him in the rebuilding of the temple. The temple and the future Messianic kingdom would not be accomplished by the power of men, but by the power of God. (Zec. 4:6), *“Then he said to me, ‘This is the word of the Lord to Zerubbabel: Not by might, nor by power, but by my Spirit, says the Lord of hosts.’”*

We just came out of our third lockdown here in South Africa, and we are still hampered in much of the activities that we would like to have as church families. From a human standpoint, it would seem impossible to make any progress in church planting and growth, but church planting is the Lord’s work, and we are reminded in these times, that He is not limited by the circumstances. Over the past year, we have seen His hand at work in building His church and are experiencing His blessings.

We have also been able to expand the Inspire George collective of church planting partners, with the arrival of two new families in the George area. One of those families is our son, Daniel and his family.

It has been a blessing to have them here and being part of the church planting effort. Thank you for your prayers for them. The Lord is already blessing them with fruitful ministry in preaching, discipleship and counseling.

The Lord has blessed us with four new believers who have a genuine hunger for the Word and desire to live for the Lord. Please pray for them and that their zeal would be contagious and impact others for the spread of the gospel and advancement in spiritual growth.

On a personal note, our overall health has been good, but Sharan has been having a lot of pain in her feet. We will be traveling to Cape Town next week to see a specialist. She may need surgery which would keep her off her feet for six weeks. We would appreciate your prayers for her.

May the Lord bless you and keep you in His grace,

Bryant & Sharan
